

ASGHAR CONSULTANTS

PRICE LIST AND SERVICE DESCRIPTION

ASGHAR CONSULTANTS

EXPLANATIONS

“Service Package”

All prices are listed in EUR (Euro) following the German format

(e.g., 1000 EUR instead of €1,000)

This is intentional and in line with local conventions.

“Service Payment dates ”

The payment dates for the respective service are listed in this area.

The payment date stated in the price list in the area of vocational training in Germany ‘Once a signable vocational training contract is available’ does not constitute remuneration for the training placement.

It merely marks a defined stage in the project process at which the next instalment for the services provided or to be provided up to this point is due.

“German language course”

The payment for the German language course is always due immediately per level (750 EUR per level).

An exception to this is the service ‘vocational training in Germany’. As the German language course is an important part of obtaining a visa to complete a training programme, there is no partial payment for the language course.

Note on visa issuance

Please note: We do not guarantee that a visa will be issued – and no one can do this seriously. The decision is made solely by the responsible German diplomatic mission abroad.

It is our job to create all the conditions so that you have the opportunity to apply for a visa at all – depending on the type of visa. This includes, for example, helping you to obtain the necessary documents, planning the procedure and dealing with organisational issues.

Whether a visa is granted in the end also depends on how you present yourself in person at the embassy and how complete your documents are.

Nevertheless, our service offers decisive added value, as we prepare you in a targeted manner, help you avoid typical mistakes and work with you to put all the requirements on the right track.
